 Raices	1 ml	1 ml									water

Apply nutrients with every watering.

- This feeding schedule is designed for various flowering and fruit-producing plants.
- The length of each growth stage may vary depending on the plant species.
- Recommended dosages are guidelines only and may differ based on plant type, plant health, environmental conditions, and light intensity.
- Always use the EC value as the main reference when adjusting nutrient levels.
- If using an automatic irrigation system, add fertiliser to every watering cycle.

GROW STRONG. HARVEST BIG

CRECIMIENTO

ELEPHANT PREMIUM CRECIMIENTO is a complete mineral fertilizer for the growth stage. Plants will grow vigorously, producing healthy, large, and strong shoots.

APPLICATION AND DOSAGE
Especially designed for light substrates with high calcium content. Perfect for potted plants and outdoor cultivation or, if you prefer, for use with an automatic irrigation system. Add between 1 and 5 ml per liter of water (1:200).

AVAILABLE IN 1L, 5L, 10L, 20L

RAICES

ELEPHANT PREMIUM RAICES stimulates your plants will develop many more and stronger roots, thereby improving the absorption nutrients from the substrate.

APPLICATION AND DOSAGE
Add 1 ml per liter of water (1:1,000). Can be used in all types of crops.

AVAILABLE IN 1L, 5L, 10L, 20L

FLORACIÓN

ELEPHANT PREMIUM FLORACIÓN is a complete mineral fertilizer designed for when the plant begins to flower and develop its yield, giving it strength to produce good flowers and form firm, high-quality harvests.

APPLICATION AND DOSAGE
Highly concentrated product. Add 0.25 to 0.5 ml per liter of water (1:2,000 to 1:4,000). Recommended for all types of substrates. Suitable for leafy crops, fruits, and ornamentals.

AVAILABLE IN 1L, 5L, 10L, 20L

PK 20-25

ELEPHANT PREMIUM PK 20-25 is a liquid fertilizer with a highly concentrated nutrient ratio. Its use is suitable for the final phase of flowering and the ripening of flowers and fruits. Plants will produce a greater number of flowers, while strengthening cell walls to produce more compact and firmer fruits.

APPLICATION AND DOSAGE
Highly concentrated product. Add 0.25 to 0.5 ml per liter of water (1:2,000 to 1:4,000). Recommended for all types of substrates. Suitable for leafy crops, fruits, and ornamentals.

AVAILABLE IN 500ML, 1L, 5L
